

**British Crystallographic Association  
Biological Structures Group Winter Meeting 2015**

**Reactive Macromolecules**

**Wednesday 16th December 2015**

**Theme:** The meeting will explore the latest research in macromolecular catalysis as revealed by crystallographic structures. The program will include sessions on enzymes involved in signalling through to co-factor bearing enzymes and their chemical mechanism.

**Format:** The one day meeting will begin at 11:00 (with registration from 10:00) and finish by 17:30. The meeting website and program can be accessed via the Biological Structures Group website: <http://bsg.crystallography.org.uk/>. An exhibition and poster session will be held during breaks.

**Venue:** Manchester Institute of Biotechnology (MIB), 131 Princess St. Manchester M1 7DN (<http://www.mib.ac.uk/>). All presentations will be in the MIB Lecture Theatre with lunch and refreshments served in the adjacent Atrium. The MIB is within easy access of both Manchester Piccadilly and Manchester Oxford Road railway stations: Walking directions from each station to the MIB will be provided via the meeting website. Public car parking facilities can be found close to the MIB on Charles St.

**Registration:** Standard rate £65.00; Concession rate (student, retired and unwaged) £47.50, including lunch, refreshments and membership of the British Crystallographic Association.
