

BSG Winter Meeting 2026

Capturing Proteins in Motion:
Structural Biology of Dynamic and Disordered ProteinsInstitute for Structural and Chemical Biology
University of Leicester

Friday, December 11th

Organisers: Prof. Simon Newstead (University of Oxford) &
Dr Rachael Wilkinson (University of Leicester)

Registration (coffee & pastries) (10:30 – 11:00)

Introductory remarks (11:00-11:05)

Session 1 (11:05 – 12:45)

(11:05-11:35) **John Christodoulou** (University College London) - (University College London) - (25 + 5)

(11:35-11:55) Poster Short Talk: (15 + 5)

(11:55-12:15) Poster Short Talk: (15 + 5)

(12:15 – 12:45) **Rebecca Beveridge** (University of Strathclyde) “Ion mobility mass spectrometry insights into dynamic protein complexes and conformations” (25 + 5)

Lunch & Poster Session (12:45-14:00)

Session 2 (14:00 – 15:20)

(14:00- 14:30) **Sarah Rouse** (Imperial College London) (25 + 5)

(14:30 – 14:50) Poster Short Talk (15 + 5)

(14:50- 15:20) **Cyril Dominguez** (University of Leicester) “Structure and Dynamics of the RNA binding protein Sam68” (25 + 5)

Coffee (15:20-15:45)

Session 3 (15:45 – 17:00)

(15:45-16:05) Poster Short Talk (15 + 5)

(16:05-16:25) Poster Short Talk (15 + 5)

(16:25-17:00) **Keynote Lecture: Professor Matthew Higgins** (University of Oxford)
"Structural Dynamics of Host–Parasite Interactions in Malaria" (30 + 5)

Drinks & Poster Session & Prizes (17:00 – 18:15)

End of meeting 18:15
